

Dear Escapes! to the Shores Owners,

Powerful Category 4 Hurricane Ida made landfall near Houma, LA on Sunday August 29, 2021.

LaTour Hotels and Resorts want our Owners in areas affected by Hurricane Ida to know you are in our thoughts and we hope that you weathered the storm safely.

Inspections at Escapes! to the Shores have found that the roofing dry in material has detached and blown from the roof in multiple areas and roofers have been onsite to assess. We expect them to be back on the roof once the wind dies down and it is safe to resume work.

The units have fared well during the torrential rains and wind we encountered. Preliminary inspections found that fewer than 10 units appear affected by Ida. We have notified Servpro of those units we are aware of and will have drying equipment installed.

The outdoor pools are currently closed until tomorrow for cleaning, but the indoor pool is currently open.

Your weekly construction update will resume Friday.

Thank you and we hope you have a safe and healthy week.

Sincerely,

LaTour Hotels and Resorts Management
