Escapes! To the Shores Owners,

We hope everyone has been enjoying their summer! This week's update will be brief compared to last week.

Effective Friday, July 2nd, 2021, the 3rd floor parking level will be closed due to the roof work being done on the east, west, and north sides of the building. There will be barriers in place to prevent vehicles from driving to the top floor of the parking garage.

All exterior entry door locks from the parking garage and pool deck have been replaced with KABA entry locks. The code to all entry doors is 1958 – we are hopeful that this upgrade will prevent the issues we had with the old key card locks.

Thank you for your patience and understanding during this time!
