

February 26, 2021

The following are this week's updates:

- Sheetrock in the D wing units is 90% complete.
- We are on track for the projected April staged reopening beginning with the D wing, followed with the B/C wing, and ending with the A wing. The A wing is currently red tagged by the city of Orange Beach due to damage sustained from Hurricane Sally.
- CRM has completed the work on the metal stud repair.
- Sally damaged landscaping repairs estimates have been received by Kutter's and submitted to insurance for review.
- The boardwalks will be updated to comply with the new city ordinance.
- As long as there is no threat of injury the outdoor pools and the gyms will reopen with their respective building, the D gym and C/D pool will open first, the A gym and A/B pool will reopen along with the A building as that courtyard sustained significantly more damage.
- Green Electric has ordered three new light poles to replace those that were damaged by Hurricane Sally and will handle installation when they arrive.
- The office staff will be working remotely from the Escapes to The Shores building until the office can be restored, new check in procedures will be provided prior to arrival once units start reopening.

We will continue to keep you updated as the progress continues. We hope you're all staying safe and healthy and appreciate your patience and understanding during this time. We are excited to bring the building back better than before!
