

# Palm Beach

RESORT

March 5, 2021

The following are this week's updates:

- Great News! CSA Roofing has started on B/C roof. Please see the pictures below!
- Sheetrock has been placed in D, mud and sanding complete and trim being re-installed.
- Sheetrock began in the B and C wing.
- Due to the updates from the construction crew, the weekly updates to owners will start going out on **Wednesdays**, therefore this update will be relatively short with more great news to come!
- We are on track for the projected April staged reopening beginning with the D wing, followed with the B/C wing, and ending with the A wing. The A wing is currently red tagged by the city of Orange Beach due to damage sustained from Hurricane Sally.
- The office staff will be working remotely from the Escapes to The Shores building until the office can be restored, new check in procedures will be provided prior to arrival once units start reopening.

We will continue to keep you updated as the progress continues. We hope you're all staying safe and healthy and appreciate your patience and understanding during this time. We are excited to bring the building back better than before!
