

Dear Escapes! To The Shores Owners,

We have compiled a list of our two top-most received questions and outlined those for you for our weekly update. We have also provided you with an update regarding Hurricane Delta.

Can I Influence the Scope of Work in My Unit?

If you would like to make any upgrades to your unit beyond what is covered by the COA insurance policy, you can submit a request through the Owners Corner webpage noting what part of the unit you are considering upgrading (e.g., upgrade from carpet to tile, alternate paint color, etc.). The resort team will add you to a list of contacts that will be given to the contractor to reach out and coordinator options and costs directly with the owner. The rebuild scope of work has not been finalized, but we are beginning to put together the list of owners interested in additional upgrade options. [Submit your request if you wish to be contacted.](#)

- 6th floor hallway demolition is 50% complete

Brief Summary of Hurricane Delta and Our Preparations:

As of Thursday afternoon, Hurricane Delta preparation was completed. All outdoor and balcony furniture were secured or brought indoors. SERVPRO and contractors have secured all of their equipment and will be offsite for 48 hours during the expected arrival of the storm. Security will be onsite 24 hours per day and the entrance has been barricaded. Contractors have also waterproofed and patched the roof to the best of their ability until it can be replaced.

Thank you for your consideration and concerns. More to follow as information becomes available.
